

CMPT 276

Group 6 · Meeting Minutes

FRIDAY, JULY 31ST · 4:00 – 4:30 PM

Attendance

Present: Ishaan, Cainan, Travis, Max

Absent: None

Iteration 3 Updates

The team members gave an update on where they were at with development tasks for Iteration 3. Feature development had nearly finished, and all members were on track to have work completed late Saturday/early Sunday.

Demo

The rest of the meeting was spent discussing preparation for the in-class demo at **11:30am on Thursday, August 6th**. Each member agreed to discuss the following topics, and to document what they planned to say in the group's shared Google Document.

Team Member	Demo Topic	General Topic
Cainan	Search functionality	Web APIs
Ishaan	Discover Page & Recommendations	Competitor analysis
Max	Admin Page	Future implementation ideas
Travis	Typing Interface	Features we didn't get to implement

The following was also agreed upon:

- The team would meet at **10:45am** on the day of the demo to do a practice run
- The group would use Cainan's computer for the presentation, and each person would control the computer for their portion of the demo
- A short set of slides would be presented for the general topics after the demo
