

CMPT 276

Group 6 · Meeting Minutes

THURSDAY, JULY 16TH · 5:00 – 5:50 PM

Attendance

Present: Ishaan, Cainan, Travis, Max

Absent: None

Current Progress: Remaining User Stories

- Cainan discussed with the group the difficulties in using the Google Books API and it was decided to switch to using Gutendex API
- Max updated everyone that he was finishing populating the admin page and writing tests
- Travis discussed his plans for stopping the user on an incorrect key being typed and how to display this to the user
- Ishaan had finished his tasks and shared the Competitor Analysis, Customer, and Project Abstract sections he wrote with the team

Submission Tasks

- Each member committed to finish writing their own User Stories with the updated requirements in Iteration 2
- Each member committed to performing and documenting their Test Cases for their User Stories
- Cainan volunteered to do the Screencast for the Iteration 2, and it was agreed that it would be okay to finish this on Monday before submission
- Travis volunteered to compile the final User Stories, Tests, and other sections into the report for submission

Tasks for Iteration 3

With the Epics nearly completed at the end of Iteration 2, the team agreed on the final set of features and polish for the final product:

- **Book Progress UI element** - populate the UI element on the right-hand side of the screen showing the percentage of book typed
- **Analytic Recommendations** - recommend books to the user based on data such as typing speed, accuracy, and preferred book genres
- **Random Book** - allow the user to choose a random book to type

- **Key-based Accuracy UI Element** - Show a keyboard with a “heat-meter” reflecting the keys with the most mistakes
- **User profile** - A nicely formatted page allowing the user to see their aggregated typing statistics
- **Gamified Display** - A small UI element in the bottom of the screen on login that shows the user their daily streak, and suggested keys to work on
- **Filter keys** - limit the types of keys included in the test such as numbers, punctuation, symbols

Soft Deadline for completed work is the evening of July 19th
